

Frequently Asked Questions about our SFCCAMembers listserv

By Dave West, listserv moderator

What is the SFCCAMembers listserv?

The SFCCAMembers listserv is an email service (sometimes called an "egroup" or "email group"). The South Four Corners Citizens Association initiated and maintains this service for its members and other residents of South Four Corners. Subscribers to the service send, receive, and store information relevant to our neighborhood. Yahoo.com promises that listservs are "free, secure, and spam protected."

Why should I subscribe to the SFCCAMembers listserv?

The listserv is the most convenient way to rapidly share neighborhood information. More than 200 neighbors are members. Try it. If you do not like it, you may unsubscribe at any time.

How do I subscribe to the SFCCAMembers listserv?

To fully access the listserv, you need a Yahoo.com ID. With (or without) a Yahoo.com ID, you then send a blank email to SFCCAMembers-subscribe@yahoogroups.com. When you receive a confirmation message from Yahoo.com, just "reply" and "send" and your subscription will be complete. I limit membership to residents of South Four Corners, so I might email you to ask you for your street name and block number.

What do I do if I signed up but am not receiving messages from the SFCCAMembers listserv?

First, make sure that when you subscribe, you reply to the confirmation message. Next, check that your email provider at home or at work is not blocking Yahoo! mail or sending it to a junk folder. Lastly, make sure your email inbox is not full, which may cause the messages to "bounce."

I'm receiving email from the group, but when I try to visit the group's webpages, it says that I "need to enable web access".

If you join the email list of a Yahoo! Group without using a Yahoo! ID, you won't have access to the group's web features until you follow the instructions below:

Go to the Yahoo! Groups Membership Wizard. You'll be asked to sign in with your Yahoo! ID. (If you're not a registered Yahoo! member, you may sign up for a free account on this page. Once you complete your registration, you'll be returned to the Membership Wizard.) Make sure the email address where you're receiving messages from the group appears in the Membership Wizard. If it doesn't appear, add it via the link provided. (If you add an address, you'll be sent a verification email to that address to assure that you own it. Please check your email and follow the instructions in the message sent to you. Then, return to the Membership Wizard.) Once your email address appears in the Membership Wizard as verified, continue with the steps in the wizard to get "web access" to all your groups. Now you'll be recognized when you go to the

group's Yahoo! home page. Access your group web features, such as Photos, Files, Calendar, and more. Choose email delivery settings for all your groups, via the Groups web site. Just visit the My Groups page.

How can I receive no more than one email from the group per day?

When you sign up, select to receive no more than one email message a day by selecting "daily digest."
